

Internship – Institutional Equity Sales, Frankfurt

UBS is a global financial services firm offering investment banking, wealth management, asset management and, in Switzerland, retail and commercial banking. Our investment bank is a market leader in cash equities and our Frankfurt-based sales team distributes global UBS equity research products and market insights to institutional clients.

Your profile:

In addition to having a convincing curriculum vitae and fluency in German and English, you'll demonstrate a keen interest in capital markets, especially in stock markets and building internal and client relationships. Applications from all degree disciplines are welcomed as is evidence of skills such as problem analysis, decision making, planning, communication, commitment, teamwork and innovation. Show the commitment to go the extra mile and the passion it takes to be successful in this challenging environment!

Your Internship Program:

An internship offers insights into the capital markets industry combined with our diligent corporate culture and working environment. For people with a passion for capital markets, the potential to cope with a fast changing landscape and strong commitment & drive to climb up the learning curve, the internship is an opportunity to get hands on experience.

You'll be part of the institutional sales team that aims to develop your knowledge in equities, securities and the capital markets industry. You will learn from industry leaders, work with our leading research and trading platform, and will be involved in various capital markets transactions, analyst roadshow and corporate events.

We know that success comes from working collaboratively with others: at UBS, you'll experience a unique collaborative environment in which teamwork thrives.

Start date: February 2018
Duration: min. 4-6 months
